

ON-THE-GO DICTATION

WHEN YOU WORK WITH WORDS YOU WORK **ANYWHERE**

WITH THE **COMPATIBLE**

NEW

DeJUR
GRUNDIG

Stenorette® **VERSATILE**

Compatibility in dictation a new top echelon requirement

You can't communicate tomorrow's decisions with yesterday's tools. They just don't work for you fast enough.

But Stenorette does, because Stenorette is designed for the job of recording ideas quickly and easily . . . designed for transcribing them just as quickly and just as easily so that others may read . . . understand . . . act.

You're not desk-bound with a Stenorette! You can dictate on your portable anywhere you happen to be, send your tapes to the office to be transcribed on any office Stenorette. Isn't that a wonderful way to get work done!

DeJUR
GRUNDIG

Stenorette®-TD

\$229.50*
plus FET

- **MODERN MAGNETIC TAPE** — Interchangeable with tape reels and magazines used on Stenorette-Versatile.
- **FOOLPROOF INDEXING SYSTEM** — Calibrated in minutes of dictation for positive secretarial evaluation.
- **REMOTE-CONTROL MICROPHONE/SPEAKER**—All the controls in the palm of your hand!
- **3-RANGE SENSITIVITY SELECTOR**—Close, Normal and Conference settings for your every need.
- **EASY PUSHBUTTON OPERATION** — No dials to set, no flashing lights to distract.
- **UNRESTRICTED BACK-SPACE** — Review as much as you like, erase and correct as often as you please! Stenorette gives your secretary true error-free dictation.
- **BUILT-IN TELEPHONE SELECTOR** —tap button and your telephone conversation is recorded. Microphone need never be removed from socket.
- **FULL RANGE OF VOLUME AND TONE** Shout or whisper, automatic voice control gives your secretary uniform playback volume for complete transcription ease.
- **ONE MACHINE FOR BOTH DICTATION AND TRANSCRIPTION** — Just connect earphone and foot control, and your secretary is ready to transcribe.

*Complete with either dictating or transcribing accessories.

DRY CELL POWERED
—FULLY TRANSISTORIZED
PORTABLE DICTATING MACHINE

\$149.50*

**NOW
3 WAYS
VERSATILE:**
Operates on either

1. Dry cell mercury batteries
2. Rechargeable battery
3. 110v or 220v, 50/60 cycles AC

This is how executives on-the-go measure time these days . . . with tape—and the 6 lb. self-powered Stenorette-Versatile, the dictating portable that works on replaceable dry cell Mercury batteries, rechargeable lifetime batteries, and 110v or 220v AC.

Stenorette-Versatile goes with you on calls to record case histories, letters, reports, memos, specifications, speeches. It tapes what you tell it, erases mistakes, provides crystal clear. "living letters" for your secretary to transcribe. Most important of all, the Versatile is completely *compatible* with its desk model mates! You dictate on your Versatile in the field, mail your tapes to the office to be transcribed on any office Stenorette.

more **DeJUR** Stenorettes are sold in the United States and Canada
GRUNDIG than all other magnetic dictating machines combined.

*plus FET less batteries

*These features
make the Versatile
complete and compatible*

SMALL AS A BOOK—This Fully transistorized Dictating Machine is the first such unit in the history of Magnetic Tape that is completely compatible with its full size office counterpart.

GO ROUND-THE-WORLD ON AC POWER—Accessory AC Power Pack provides 110v or 220v for 50/60 cycle electric outlet flexibility at home or abroad.

DISPOSABLE BATTERIES—Low cost, light weight, disposable mercury cells provide all the power for battery and transport mechanism. Get up to 30 full hours of recording/reproducing time on each set of power cells.

YEARS OF POWER SUPPLY, TOO—Uninterrupted source of power also available from non-deteriorating, trouble-free, nickel-cadmium battery pack, as accessory item. Each battery charged from accessory charger insures four hours of continuous dictation. Four-hour portable charge is undiminished when charger accessory is used as an AC Power Pack.

UP TO 45 MINUTES OF DICTATION TIME—For ultimate economy the magnetic medium is endlessly reusable, and gives you up to 45 minutes of error-free dictation, on each reel or magazine of magnetic tape.

PUSH-BUTTON OPERATED THROUGH-OUT—Dictate, listen, rewind and stop at the press of a button.

CONVENIENT MICROPHONE CONTROL—Start, stop, from microphone with push-button lock.

CONVENIENT FOR TRANSCRIPTION—Substitute an earphone for microphone, and Stenorette-Versatile becomes a transcribing machine. Leave it with public stenographer for transcription while you make your business calls. Correspondence, call reports, contracts, are ready for your signature at the end of day no matter how far you are from your office.

REPRODUCTION FIDELITY—Automatic recording level volume control assures perfect recordings and uniform playback at all times through dynamic Microphone/Speaker combination. Reproduction quality is equal too, and even superior too, many standard office models.

FREEHANDED DICTATION—Convenient lapel microphone facilitates usage requiring freedom of hands and arms such as inventory-taking and interviewing.

VISIBLE CHARGE LEVEL—Battery condition indicator for both amplifier and transport mechanism tells at a glance when recharge is required.

FOR USE IN CAR—When using nickel-cadmium power pack accessory, operator may dictate while driving a car without affecting battery charge by connecting accessory 6 or 12 volt cable from unit to cigarette lighter socket.

LINEAR PROGRESS SCALE—Clearly visible indicator permits both location and indexing of any portion of recorded material.

STURDILY ENGINEERED—Constructed on a die-cast magnesium-alloy frame to withstand unusually rugged conditions; unaffected by extreme temperatures and altitudes.

CARRYING CASE—Handsome leatherette case with shoulder strap for traveling ease.

ROLL-AWAY COVER—For ready access to push-button controls while entire unit remains in case and operating.

COMPACT DIMENSIONS—Length: 10¼"; Width: 5½"; Height: 3¼"; Weight: 6 lbs.

ACCESSORIES

DS-590 — AC POWER PACK
—Switch from battery operation to 110v or 220v AC. Preserves life of Mercury cells; offers electrical outlet versatility at home or abroad.

DS-578 — DRY CELL BATTERY COMPARTMENTS—Separate compartments for Amplifier and motor operation makes for easy loading and more efficient operation.

DS-583 — RECHARGEABLE BATTERY—Special nickel-cadmium cell that offers four hours of continuous use on each full charge from accessory charger.

DS-582 — CHARGER/AC POWER PACK COMBINATION—Restores Stenorette nickel-cadmium battery to full operating potential when plugged into 110v AC source. Also allows Stenorette-Versatile to operate from 110v AC source.

DS-610 — TAPE MAGAZINE
—For easy loading, mailing and handling. Just drop in slot and dictate. 30 or 45 minute capacity.

DS-510 — EARPHONE with EARLOOP—Offers privacy of playback when dictation is being transcribed from the Versatile. Earloop has reversible snap-fastener for right or left ear use.

DS-577 — CARRYING CASE
—Leather carrying case with shoulder strap enables you to dictate while on-the-go. Stenorette-Versatile will operate with flap opened or closed.

DS-243 — TELEPHONE ADAPTER—For recording 2-way telephone conversations. Includes induction coil with rubber suction pad, attachment cord and plug. No internal connections required.

DS-593 — LAPEL MIKE
DS-594 — TIE CLIP MIKE
—Miniature microphones for confidential recordings and where free-handed dictation is desirable. Ideal for interviews, market research, taking inventory.

plus F. E. T.

with either
dictating or
transcribing
accessories

Magnetic tape for crisp, clear recordings . . . electronic erase and correction from one button microphone control . . . tapes interchangeable with battery-powered portable for complete compatibility.

MICROPHONE CONTROLS — All functions controlled by one flick-of-the-thumb microphone button for start, stop, review and electronic erase. Errors corrected directly on tape by recording over material to be erased.

UNRESTRICTED BACKSPACE — Review as much as you like, backspace as often as you have to, operation controlled from microphone button.

INDEXING — Progress Scale Indicator calibrated in minutes of dictation identical with printed Log Pad for positive foolproof indexing.

COMBINATION MICROPHONE/SPEAKER — Has a recording signal light, automatic review and/or erase button, stop-start control and microphone lock for continuous recording or playback.

VERSATILE — Dictate and transcribe with the same machine; or use one machine for dictation, another for transcription; or use both to do either, as the need arises.

FULLY TRANSISTORIZED — No waiting for warm-up time, no delay in putting your thoughts on tape.

ECONOMICAL — Up to 45 minutes of dictation on each spool or tape magazine.

PORTABLE — Weighs only 12 lbs. 2 oz.

COMPACT — $10\frac{1}{2}'' \times 12\frac{1}{2}'' \times 4\frac{1}{2}''$.

MAILABLE RECORD — Tapes can be sent through the mail, to your man in the field for precise instructions.

USABLE ANYWHERE — Office, home, plane, train, and automobile. This dictating machine will perform perfectly even in a moving car.

TIME SAVING — Frees you and your secretary for many other important duties.

RUGGED AND SHOCKPROOF — Will give you years of trouble-free service.

TAPES ARE EASILY FILED — Taped messages will not lose fidelity with time. Yet can be erased and used again when desired.

AUTOMATIC VOICE CONTROL — Shout or whisper, Stenorette's automatic voice control suppresses extra loud sounds, boosts lows, for uniform hi-fidelity playback.

RECORDING SIGNAL LIGHT — Microphone light indicates Stenorette-TD is ready for dictation.

POWER CONSUMPTION — Operates on 60 cycles, 115 volts. Single phase, 35 watts, U/L approved.

RECORDING SELECTOR — 3 Range Recording Selector for close, normal, and conference recording.

COMPATIBLE WITH PORTABLE — Completely compatible with the portable, battery-powered Stenorette. Dictate on the portable in the field, mail your tapes back to the office for transcription on the Stenorette-TD.

PUSHBUTTON OPERATION — Push a button and you are ready to dictate; push another and you are ready to transcribe. Built-in safeguards will not let you press the wrong button.

AUTOMATIC CONTROL — Record, listen, start, stop, backspace, erase with pushbuttons. Set the dials for tone and playback volume control Foolproof "drop-in" loading.

END OF TAPE SIGNAL — Audible signal to tell you when you are approaching the end of dictating time.

Conference recording — Stenorette has special setting for conferences. No other equipment necessary. Use same microphone; same machine.

Crystal Clear Recordings — Exclusive automatic voice control, and the recording superiority of magnetic tape eliminates audio-fatigue, makes for happy secretaries.

Dictate While Driving — Operates perfectly in moving car. No matter how bumpy the road, Stenorette will record everything you dictate without skipping a word.

FULLY TRANSISTORIZED PORTABLE DICTATING MACHINE NOW 3 WAYS VERSATILE

Stenorette®-VERSATILE

For the man on the go . . . A fully transistorized battery-powered portable that operates on replaceable mercury dry cell batteries, or a nickel-cadmium rechargeable battery, or on a 110v or 220v 50/60 cycle AC power pack.

These features make the Versatile complete and compatible

SMALL AS A BOOK—This fully transistorized dictating machine is the first such unit in the history of magnetic tape that is completely compatible with its full size office counterpart.

REPLACEABLE BATTERIES—Low cost, light weight, disposable dry cell mercury batteries provide all the power for battery and transport mechanism. Obtain up to 30 full hours of dictating/reproducing time on each set of power cells.

YEARS OF POWER SUPPLY, TOO—Uninterrupted source of power also available from non-deteriorating, trouble-free, nickel-cadmium battery pack, as accessory item. Each battery charged from accessory charger, insures four hours of continuous dictation. Four-hour portable charge is undiminished when charger accessory is used as an AC Battery Pack.

ROUND-THE-WORLD ON AC—Operates on either 110v or 220v Accessory AC Power Pack directly from household current.

UP TO 45 MINUTES OF DICTATION TIME—For ultimate economy the magnetic medium is endlessly reusable, and gives up to 45 minutes of error-free dictation on each reel or magazine of magnetic tape.

PUSH-BUTTON OPERATED THROUGHOUT—Dictate, listen, rewind and stop at the press of a button.

CONVENIENT MICROPHONE CONTROL—Start, stop, from microphone with push-button lock.

REPRODUCTION FIDELITY—Automatic recording level

volume control assures perfect recordings and uniform playback at all times through microphone/speaker combination. Reproduction quality is equal to, and even superior to, many standard office models.

FREE-HANDED DICTATION—Convenient lapel microphone facilitates usage requiring freedom of hands and arms, such as inventory-taking and interviewing.

VISIBLE-CHARGE LEVEL—Battery Condition Indicator, Amplifier and transport mechanism tells at a glance when recharge is required.

FOR USE IN CAR—When using nickel-cadmium Power Pack accessory, operator may dictate while driving a car without effecting battery charge, by connecting accessory 6 or 12 volt cable from unit to cigarette lighter socket.

LINEAR PROGRESS SCALE—Clearly visible indicator permits both location and indexing of any portion of recorded material.
